Activated Carbon Compendium: Marsh, H.: 9780080440309 ...

Activated carbon is produced from nearly all carbon-containing organic materials, mainly wood, sawdust, nutshells, fruit stones, peat, lignite, coal, petroleum coke, etc. The use of a suitable precursor is mainly conditioned by its availability and cost, although it also depends on the main applications of the manufactured carbon and the type of installation available.

Activated Carbon | ScienceDirect

Download Activated Carbon books, Recent years have seen an expansion in speciality uses of activated carbons including medicine, filtration, and the purification of liquids and gaseous media. Much of current research and information surrounding the nature and use of activated carbon is scattered throughout various literature, which has created the need for an up-to-date comprehensive and ...

Micrographs of a ZnCl 2 activated carbon sample (COAFC-1) after thermal treatment. The pore size distributions presented in Fig. 4 clearly show the differences in the porosity of our samples. Even though COFAC-0.5 has a very high volume of small pores, which should enhance the physical adsorption of hydrogen sulfide, the limited volume of larger transport pores has a negative effect on the ...
