China, the most populous country (1.3 billion people) and the second-largest economy in the world, is a vast, dynamic nation that continues to grow and evolve in the 21st century.

21st-Century China - The Atlantic
The Chinese Century is a neologism suggesting that the 21st century will be geopolitically dominated by the People's Republic of China, similar to how "the American Century" refers to the 20th century and "Pax Britannica" refers to the 19th. The phrase is used particularly in the assertion that the economy of China will overtake the economy of the United States as the largest national economy in the world, a position it held in the 16th, 17th century and early 19th century. The Economist has arg

Chinese Century - Wikipedia

With about one-fifth of the world's entire population, the nation of China remains an enigma to many in the West. Thousands of years ago, China was an imperial nation with grand ambitions of regional—and even world—domination. Though it was racked by war and economic catastrophe throughout the 20th century, the opening decades of the 21st century are seeing new attention paid to China as an economic and political superpower in the making.

Is This China's Century? | Tomorrow's World

The mission of the 21st Century China Center is to produce and disseminate impactful evidence-based research about China, and to enhance U.S.-China relations by advancing scholarly collaboration, convening policy discussions, and actively communicating with policy makers and the general public in both countries.

21st Century China Center

Across the Pacific, China is proffering itself as the heart of 21st-century geography. Its Belt and Road Initiative connects a massive pool of resources, human capital and consumer markets in Europe, Africa and Asia by land and sea. Its trade and transit arms reach across the Arctic, Pacific and Indian oceans, and spiderweb across Asia and Europe.
