The cost principle is one of the basic underlying guidelines in accounting. It is also known as the historical cost principle. The cost principle requires that assets be recorded at the cash amount (or the equivalent) at the time that an asset is acquired.

What is the cost principle? | AccountingCoach

IAS 16 outlines the accounting treatment for most types of property, plant and equipment. Property, plant and equipment is initially measured at its cost, subsequently measured either using a cost or revaluation model, and depreciated so that its depreciable amount is allocated on a systematic basis over its useful life. IAS 16 was reissued in December 2003 and applies to annual periods ...
